

Varsity

We met after basketball
You won the game and my affection
Gave me your number, we talked all night long
Said I'd be under your protection

You said my lips were like red wine
Your kiss blew my mind, like a tongue twister
But turns out you scored a double that night
You sent the same picture to my sorority sister

I can see you're two-timing dog
You're just stringing me along

**He is Varsity
But he's no good for me
He likes to play those games
Oh but I can't compete
Think I can't see your lies
When you're over 6 feet
You're a heartbreaker in the big leagues**

Dark eyes that led to your soul
I have to stand on my toes to see
On the weekends, you say you gotta work
But I can come over when it's half-passed three

You spend most of your time in the shade
But I got some secrets of my own
You think you had me fooled, but you don't know
I've been talking to the captain of the football team

**Because you're Varsity
And you're no good to me
You like to play those games
You think I can't compete
But if I turn you down
When it's half past three
It's 'cause I'm hangin the captain of the football team**
