

## How Do I Know?

You say it ended long ago  
But I can't wait to know if she's there  
I'm falling harder every day  
So stop me now if you truly care  
My heart says love you baby  
But my head just ain't so sure

**(Chorus)**

**Don't tell me a single lie  
Cause one day, I won't it's true  
You say that you're over her  
So come here now, it's time for you to prove  
I don't want to lose you; you know I want to believe you  
But HOW DO I KNOW?**

If I'm the one you truly love  
Then why do your eyes light up when she's there?  
I hear she's just a friend to you  
But you try too hard to show that you don't care  
My heart says love you baby  
But my head just ain't so sure

**(Chorus)**

You tell me you can't live without me  
And it's hard to argue when you kiss me  
But when she walks by I can't help thinkin'  
That she's the one your heart is missin'

**(Chorus)**
