

Right Next to Me

I can't hold you back
I can't keep you to myself
You're not a shiny trophy
I can keep up on a shelf

I want the world to see
All that you can do
Your dreams will take you elsewhere
And you need to see them through

*Let me put my arms around your neck
And I won't let go until you kiss me
Baby show me now how much you care
So when you're gone I'll know you miss me*

**Whether you're in the next room over
Or we're a lightyear apart
I'll think of the way you're holding me
You'll never really be that far**

**Doesn't matter if you're in this small town
Or in another galaxy
I'll think of the way we're laying here
And you'll be right next to me**

**Oh oh you'll be right next to me
Oh oh and you'll be right next to me**

How do you read my mind?
Like no one ever has
How do you know just what I need
Before I even ask?

So even when you're gone
I know you're gonna say
Exactly what I need to hear
From a thousand miles away

*Let me put my arms around your neck
Baby show me now how much you care
So when you're gone I'll know you miss me*

**Whether you're in the next room over
Or we're a lightyear apart
I'll think of the way you're holding me
And you'll never really be that far**

**Doesn't matter if you're in this small town
Or in another galaxy
I'll think of the way we're laying here
And you'll be right next to me**

**Oh oh you'll be right next to me
Oh oh and you'll be right next to me**

So goodbye just for now
I'll write you when you're gone
It's best for both of us
'Cause I can't be happy if you're not

I remember your hands around my waist
And the way you taste when you last kissed me
And I know you miss me...

**Oh oh you'll be right next to me
Oh oh and you'll be right next to me
Until you're right next to me**
