

# Green Lights

I used to do just as I was told  
No rebel bone in my body  
I used to fit right inside the mold  
That only got me so far

I used to serve you like a slave in chains  
A genie stuck in the bottle  
But now I'm runnin', time to make a change  
I'm on my way to a better place

So jump in or stay home  
It's full speed ahead  
key's in ignition  
I'm going all the way

## **Chorus:**

**Meet me in the left lane  
I'm going too fast  
Nothing's holding me back no more  
All I see are green lights  
They're telling me go  
And if you're too slow  
Good-bye**

Can't hold me back, I'm an avalanche  
Better get out of the way  
If life's a game then I've got a plan  
I'm ready babe if you wanna play

So jump in or stay home  
It's full speed ahead  
key's in ignition  
I'm going all the way

## **(Chorus)**

Show me them green lights oh whoa  
Green lights saying go  
Green lights oh whoa  
Green lights saying go go go
