

## Destination

Said I had to follow my dreams  
I had to put myself first  
So why I am I not happy?  
Tell me why am I not happy?

Said I had to leave the city  
I had to find my own  
But now that you're not with me  
It's not the same when you're not with me

Didn't wanna slow each other down  
Thought I had to find somewhere new  
Now you got me thinking out loud  
Where was I running to, where was I running to?

**What if you're my destination?  
What if you're my destination?  
What if you're my destination?  
What if you're the one I'm trying to find  
And I'm leaving you behind**

Tried to find another lover  
I tried to meet someone new  
But I could not get close 'cause  
None of them were you

I don't wanna start all over  
because you're all that I know  
And they say nothing's perfect  
But babe we got so close

Didn't wanna slow each other down  
Thought I had to find somewhere new  
Now you got me thinking out loud  
Where was I running to?

**What if you're my destination?  
What if you're my destination?  
What if you're my destination?  
What if you're the one I'm trying to find,  
And I'm leaving you behind?**

I don't wanna leave you behind  
And I don't know if you still need me  
But if you feel the way I'm feeling, let me know  
I don't wanna leave what we got  
When everything is so uncertain

All I know is that without you I'm lost

**What if you're my destination?  
What if you're my destination?  
What if you're my destination?  
What if you're the one I'm trying to find,  
And I'm leaving you behind?  
I don't wanna leave you behind**
