

BACK OFF!

You got good looks, I'll give you that
But it's clear you know it too
By the way you're standing, shades pulled down
From way across the room

So you walk on over, their eyes on you
Thinkin' I'm real impressed
But you're comin' on too strong, my dear
Do you got a watch? Cause it's time to back-

**BACK OFF! I'm not that easy, you know
I'm not the kind a girl who's gonna give in
It's gonna take you some time
If you wanna reach my finish line
So throw it in reverse and BACK OFF
BACK OFF!**

I don't need some boy who gives me just a pretty face
Not just mesmerizing eyes will do
Cause how will I know if your love is for my picture
Or will it always be the mirror for you?

I'll admit that I could see us getting together
But don't think that I'll let you know tonight

And if you keep on pushing it, I'll just push you away
Cause slow and steady always gets it right

(Repeat Chorus)

It's gonna take a little more or else I'm walking out the door! (4X)

(Repeat Chorus)
