

Do I Want You

We look good on paper
You look good in person
So I took a ride along

Drove me to the valley
Kissed me on the highway
Played me all your favorite songs

Now I can feel your dark eyes
Lookin through me at night
Guess you feel something is wrong

I was lonely when you
Found me on the barstool
Didn't mean to string you along

But do I see a future with you?
All I wanted was a happy ending
I'm looking for my fairytale
But are you my prince charming?

Do I want you
Or do I want the feeling?
Do I like you
Or do I like falling?
You're giving it all, giving it all
Giving it all to me
But do I want you
Or do I want the feeling?
I want the feeling

Maybe I fell too fast
Now I wanna go back
I don't wanna hurt your pride

'Cause you opened your arms
Gave me all of your heart
I'm still holding on to mine

But do I see a future with you?

All I wanted was a happy ending
I'm looking for my fairytale
But I don't know if you're my prince charming

**Do I want you
Or do I want the feeling?
Do I like you
Or do I like falling?
You're giving it all, giving it all
Giving it all to me
But do I want you
Or do I want the feeling?
I want the feeling**

You're giving it all, giving it all
Giving it all to me.....
Do I want you or do I want the feeling?
