

Know My Name

I'm from a place not far away
Soon everybody's gonna know my name
Go out at night, work hard all day
Soon everybody's gonna know my name

Under pressure I won't break
Soon everybody's gonna know my name
I'm genuine, and nothing's fake
Soon everybody's gonna know my name

**You can try to knock me down
But I don't mess around
You think you had me beat
But I'll get back up on my feet again**

I'm not afraid to take my aim
Soon everybody's gonna know my name
When the night is dark I'll be the flame
Soon everybody's gonna know my name

I've heard them say no pain no gain
Soon everybody's gonna know my name
Just wait till you see me in the hall of fame
Soon everybody's gonna know my name

**You can try to knock me down
But I don't mess around
You think you had me beat
But I'll get back up on my feet again**

I'm permanent; make no mistake
Soon everybody's gonna know my name
I told you, darling, I'm here to stay
Soon everybody's gonna know my name
